VITA

After completing his technical training at the HTL Hollabrunn, Günter Lukas gained his first professional experience as a software developer and project manager in the telecommunications industry. Subsequently, he was entrusted with various management positions, most recently as Head of Software Development and IT Solutions with responsibility for around 650 employees in Austria, Southeast Europe and China. After the spin-off of this division into an independent company, Günter Lukas was appointed managing director under company and trade law. Günter Lukas founded his own consulting company in 2010 and since then has worked as a management consultant and systemic coach focusing on organizational transformation and leadership development.

Günter Lukas has been part of the Coverdale Austria team since 2015. He has been a partner and authorized signatory since 2016.

GÜNTER LUKAS SAYS

"My self-image is to accompany and support people and organisations in the development of their potential. The focus is on activating and further developing previously hidden resources. This is achieved with great appreciation and tailor-made, practice- and solution-oriented concepts that are tailored to the needs of the customers. The basis is cooperation based on partnership and trust, in which humour can also play an important role.

My private interests are my family, travelling, motorcycling and various sports (squash, diving and some others)."
